Line	Description	General Applications
A 	Continuous thick or continuous wide	Visible outlines, visible edges, crests of screw threads, flow charts maps, system lines (structural metal work)
B 	Continuous thin (narrow) (straight or curved)	Imaginary lines of intersection, projection, extension, hatching, etc.
C 	Continuous thin (narrow) freehand	Limits of partial or interrupted views or sections, if the limit is not a chain thin line
D 	Continuous thin (narrow) with zigzags (straight)	Long Break Line
E 	Dashed thick (wide)	Lines showing of permissible of surface treatment
F 	Dashed thin (narrow)	Hidden outlines Hidden edges
G 	Chain thin Long-dashed dotted (narrow)	Centre lines, lines of symmetry, trajectory, pitch circle of gears, pitch circle of holes
H 	Chain thin (narrow) with thick (wide) at ends and changing of position	Cutting planes
I 	Chain thick or Long-dashed dotted (wide)	Indication of lines or surfaces to which a special requirement applies
J 	Chain thin double-dashed or long-dashed, double dotted (narrow)	Outlines of adjacent parts, hatching and extension of movable parts, limiting outlines prior to forming parts, should in front of the cutting plane
